

Title	Linguistics (Bachelor's Degree)
Introduction	The objective of the programme is to provide theoretical knowledge and practical education for specialists in the field of translation and interpretation. Education of such specialists is relevant to the increasing requirements for the implementation of intercultural communication in different spheres of social, political and academic life. The development and implementation of this programme offers a chance for more problem-based education of professionals, and for closer and more conscious contact between the university and our city's translation companies.
Programme contents	The programme curriculum includes the following core courses: <ul style="list-style-type: none"> <li>• Theory of Linguistics;</li> <li>• Practical Course of the First Foreign Language;</li> <li>• Practical Course of the Second Foreign Language;</li> <li>• Intercultural Communication;</li> <li>• History and Culture of Great Britain and the U.S.;</li> <li>• Current Issues in Translation Theory;</li> <li>• Experimental Linguistics;</li> <li>• Contemporary Linguistic Methods;</li> <li>• Information and Communication Technologies in Linguistics;</li> <li>• History of English and American Literature;</li> <li>• Translation of Business Documents;</li> <li>• Pedagogy;</li> <li>• Psychology.</li> </ul>
Career	The graduates can work as translators and interpreters and provide language support to state-owned and private companies. Also they can work in translation agencies and centres or work as language teachers at universities or schools.
